THE EVOLUTION OF TELEMATICS

Telematics has evolved from very basic data collection and a focus on SVR, to a sophisticated ecosystem of solutions beyond just vehicle applications that include open platforms that enable a variety of new market solutions

HIGH-LEVEL VALUE CHAIN

Cadena has initiatives in the value chain market that addresses specific needs but a larger opportunity exists to offer a more holistic end-to-end solution

SA M&A ACTIVITY IN ON-DEMAND DELIVERY

Despite attractive investment cases, these businesses' share prices have in many instances stagnated, trading at relatively large discounts to intrinsic value, enhancing their appeal to investors.

2011-2013

Takealot Acquires Mr Delivery

- 60% majority stake in 2013 to vertically expand Mr D's services from food delivery to other types of delivery like clothing, electronics, furniture, groceries and Alcohol)
- Grown to over 4500 delivery drivers and 1.6m monthly deliveries

2017

Makro Acquires WumDrop

- Helped to reduce delivery time (3-5 day delivery lead time reduced to just 2 days, for deliveries within 30km)
- Also focused on helping WumDrop continue growing its on-demand logistics network to other businesses like builders warehouse, Burger King, Game, CTM)

2020

Pick n Pay Acquires Bottles

- Majority stake to help Pick n Pay grow online grocery business less than 1 week into SA's COVID-19 lockdown
- Pick n Pay has since launched Bottles in 4 cities, doubling its online grocery sales and increasing online customer base by 200%

2021

Imperial Acquires ParcelNinja

- 60% stake to enhance warehouses, ordering systems, packaging, delivery and reporting
- Helps to improve Imperial's digital capabilities, while helping ParcelNinja grow its daily performance of approx. 1800 items packaged for 3000 orders

2021

Mr Price Acquires Yuppiechef

- Mr Price's recent R470 million acquisition of Yuppiechef was announced in 2021
- Expand to an established, high-growth omnichannel brand gaining access to a higher LSM customer base, enabling growth of its share-of-wallet through aspirational value spending.

TRENDS

Merger and acquisition (M&A) activity

Uptick in foreign investment driven attractive valuations, the weak Rand and upside potential. This trend, coupled with the relaxation of pandemic-related restrictions, low interest rates, the strong balance sheets of South African corporates, a government and regulatory framework that is enabling in certain respects and the boost to commodity prices from Chinese economic stimulus, is continuing to bolster current deal activity (local and foreign).
